“ Mom, I am hurting right now but I know you are not and I hope we can take comfort in that. No more kidney dialysis, pain or vein surgeries. I will always cherish our times together. You were kind and loving to those around you and were always there for good advise when we needed it. I remember you watching kids for family and friends when they needed it. You would give everything you had to help someone out. We will all miss you so, so much. You were the greatest mom anyone could ask for. And as I sit here and cry I know you are still watching over us and telling us not to cry. But you are such a kind hearted person, it's hard not to. I will never ever forget you. I love you forever and always. For those who read this my mom loved animals too. So fill a bird feeder. She liked watching the birds or give to a place that helps animals. Thank you for all you kind words and concerns. We appreciate you all.
